Note: * Hospital has fewer than five discharges.

Source: These payer specific data have been provided by the Utah Department of Health, Office of Health Care Statistics (OHCS). The original source of the payer specific data is text information of payer's identification in hospital discharge records submitted by hospitals. The information has following limitations: 1) The payer's identification in a discharge record may not be the final payer since the discharge records were submitted on 45 days after each quarter ends. Payer source may change after the record was submitted. 2) Staff members in the OHCS classified the original text payer's identifications into 14 major payer categories based on their best knowledge of payer company names. The classification has never been validated by outside independent reviewers. 3) The payer specific data are derived from the primary payer's identification only. The second and third payer's identification are not included in the classification. 4) The OHCS did not examine the payer specific data at individual hospital level and did not release the payer specific data to hospitals for their review. Therefore, the OHCS cannot verify the quality of payer-and-hospital specific data.
